DETAILED ACTION

This Office action is responsive to communication received 03/23/2006 –
Amendment and Terminal Disclaimer.

Terminal Disclaimer

With respect to the terminal disclaimer, received 03/23/2006, note the following:

The terminal disclaimer has been reviewed and is NOT accepted. First, the terminal disclaimer does not identify the application/patent being disclaimed. Second, the terminal disclaimer does not include a recitation that any patent granted shall be enforceable only for and during such period that said patent is commonly owned with the application(s) or patent(s) which formed the basis for the double patenting rejection. See 37 CFR 1.321(c)(3).

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 1-6, 8-17, 19 and 20 are allowable over the prior art references or record because it would not have been obvious to modify any of the prior art devices of record to include a rod extending from the striking surface at a perpendicular orientation (claim 1), the step of providing a straight rod and a weight that weighs the same as the rod (claim 9) and a weighted plug of weight generally equal to the claimed rod, with the plug being threaded to be received within a bore in place of the rod (claim 15).

Although the terminal disclaimer has not been accepted, the remaining claims are allowable in view of the amendments to the claims. Note, applicant has incorporated the necessary subject matter of objected to claims 7, 10, 14 and 18 into

Art Unit: 3711

the respective independent claims. Claims 7, 10, 14 and 18 were not the subject of any double-patenting rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
